

**Take samples,  
but take them correctly**

We carry one of the most complete range of products in the world!

## Samplers for liquids

**Mini-Sampler**  
for liquids, draws directly into the original bottle. Available in polyethylene or in PTFE/Teflon®.

**Aqua-Sampler**  
made of PTFE/Teflon® for ultrapure water analyses

## Samplers for viscous substances

**Visco-Sampler**  
for liquids, sludge and chemicals. Made of PTFE/Teflon® for ultrapure sampling or of polypropylene.

**Ice-Sampler**  
for frozen foods and pasty substances. Stainless steel.

Request your own personal catalog copy - of course, free of charge.

**Liqui-Sampler**  
the liquid collector made of PTFE/Teflon® for ultrapure sampling.

**Liquid Collector with Telescopic Rod**  
Collect samples directly into the original bottle

**Quick-Picker**  
for quality controls, directly from sacks, big-bags

**Valve Lance**  
for pastes, filter cakes, cremes, fats

**Quali-Sticker**  
for fats, cheese, foodstuffs, pastes. Stainless steel.

**Quali-Sticker**  
for fats, pastes sewage sludge, soils

## Unit-Dose-Sampler

**Unit-dose Sampler**  
for powders or liquids. Precise dosing according to FDA recommendations. Developed especially for the pharmaceutical industry. Stainless steel

**Pharma-Picker**  
Unit-dose system for highly precise collecting of very small quantities.

**Beaker Collector**  
for bulk goods such as tablets, granulates and powders. Different beaker volumes. Adjustable collection depth. Stainless steel

## Samplers for bulk goods

**Zone Collector**  
for bulk goods. Collects samples from different sampling depths simply, quickly and cleanly. Lance lengths from 50 to 150 cm. Made of stainless steel/PTFE/Teflon® or aluminum.

**Powder-Proof**  
for cross-sectional sampling of bulk goods from sacks, big-bags and silos. Different lance lengths. Stainless steel.

**Quick-Picker**  
for bulk goods. Quality control, directly into the original bottle from sacks, big-bags and casks.

**Silo-Picker**  
for bulk goods that have to be collected from different depths: silos, tanks and basins. Stainless steel.

**Vaku-Sampler**  
for bulk goods. Destruction-free cross-sectional sample from sacks, big-bags, casks and silos. Lance length from 60 to 150 cm. Stainless steel or polypropylene.

## Gas-, Soil sampling, Ultra-pure sampling, Sample Transport

**Close-it**  
the safe control closure labels with super adhesive strength. Samples labeled correctly, insertion holes sealed cleanly and leak-proof.

With practical reel.

**AirBag**  
for collecting air and other gases. Foil - inside PE, with shut-off cock.

**Steri-Bag**  
Sterily packed disposable products: scoops, spoons, spatulas and knives.

**Mole**  
For determining soil dampness, contamination and general soil qualities. Hardened steel, nickel-plated.

**Transport of Samples**  
comprehensive range of bottles and cans made of PTFE/Teflon®, even for ultrapure samples
